PRELUDE –

We request that you read, digest and assemble the content of this information and take action accordingly to support the promotion of peaceful objectives discussed in this briefing folio. Our main intent is to simply inform you of who we are...

David Wolstencroft author and creator of the series “Spooks” writes the following in his work of fiction “he says” based on our factual activities. We reproduce it here as an anchored introduction to our already ongoing reputation to your organisation. Inasmuch as Wolstencroft over-exaggerates, yet grossly underestimates the scope and reach of our operations, we are thankful for his pioneering efforts in spreading the name and reputation of our activities into human consciousness. If only as an archetype, this of course serves our purposes.

This following information can be found in the initial section of his book – “Contact Zero”.

- WOLSTENCROFT ON CONTACT ZERO -

NOTICE – FROM WOLSTENCROFT’S BOOK -

“‘Contact Zero’ does balance itself on a platform of fact. Given the potentially sensitive content of some of these ‘real’ elements, readers should note that the United Kingdom Defence Press and Broadcasting Committee reserves the right to review all content prior to publication.

This is done in the interests of national and/or operational security.

This volume may therefore contain obscured and redacted elements within the body text, in order to conceal any information that breaches their guidelines. Such editing is beyond the control of the author.”

FOREWORD – FROM WOLSTENCROFT’S BOOK -

“The operational information that enabled me “Wolstencroft” to write this book was sourced at great length through an eclectic range of channels. The vast majority came through interviews I conducted with men and women of the Secret

Intelligence Service (MI6), both current and retired. Those who spoke to me about what has become known as the ‘Contact Zero’ network did so only on the condition of complete anonymity. In the interests of security, these interviews took place in person and were not recorded. Remarkably, a small minority of interviewees displayed a deeply humbling intestinal fortitude and requested that they themselves be named, if only to give credence and legitimacy to a concept that has of late descended into the realm of myth and legend. For personal reasons, as well as for the continuing security and safety of those brave individuals and their families, I have decided not to document their identities here.

At the time of writing no documents relating to the Contact Zero network or its infrastructure have been declassified. There are no references to its Global reach or its extraordinary history. The only available record, until now, has been confined to the world of anecdote. And of course, over the years, it has evolved, quite simply, into a kind of espionage parable – an illustrative ‘faery’ tale that amuses SIS analysts and other intelligence personnel when the nights draw in and the rain lashes down on the triple glazing of their offices at Vauxhall Cross.

However, travel up a few floors to the management level of the intelligence apparatus and the rumours persist. Like a vapour, many reach these higher altitudes and condense. Once invisible and airborne, they now take on an earthly form, an unsettling reality. When operations fail spectacularly, when the blowback from a botched recruitment strikes hard and careers are jeopardised... when calamities such as these occur, the fingers begin to point and the tongues begin to wag. The need to siphon off blame to a third party can be all consuming. There are many options open to an astute politician. Increasingly, a sprinkling of the Contact Zero myth has become a convenient scapegoat as any. Entire Governments have pointed at shadows in the dark or knives in the attic. An intelligence service that considers itself a city-state by other means has no qualms about doing the same. No one has proved Contact Zero exists, of course. But then, no-one has proved it does not. Because as Tacitus tells us in the *Agricola*: ‘Rumour is not always wrong.’”

David Wolstencroft – April 2005

~ OUR EMERGENCE ~

The essential components of Myth and Legend are; that they are usually over-exaggerated, misinterpreted, misrepresented and just a glimpse of the truth. One could draw this analogy quite easily in the intelligence arena. The truth as it were, is often quite a lot stranger than any fiction.

Yes, we are the true Contact Zero Network. And though our means are not that of the prestigious SIS, our goals are shared, and our sights are set high. However, do not be confused by the cover. We have in our arsenal the most advanced technologies on planet Earth, thanks to being involved in an extensive array of U.S and Australian Allied forces led Black Ops Programmes; originating from Operation Paperclip, subsequent Electrogravitic Programmes and others including, “THE STARGATE PROGRAMME”, “PROJECT PEGASUS”, the Montauk facility and beyond.

Yes, ours is an extensive history, and we have had hands in all of it. As some of your higher departments and Scientific R&D centres must know (in keeping up with the C.I.A. and Pentagon Activities) time is Non-linear in nature and can be stretched, bent and folded. This indeed revolutionises the way Intelligence Agencies like MI6 must navigate the minefield of reality. Any doubts on this subject and I would inspire you to ask questions of what the C.I.A was doing with the ‘Chronovisor’ in the Sixties, and in ongoing deeply classified projects, to present day. Our intelligence on these subjects comes from participation in & also cross referenced Intel direct from the inside; from various trusted, respected and capable sources - not to mention our direct experience with KOALA intelligence and certain “ultra-advanced” phenomena.

In order to understand the nature of Contact Zero, one must first understand and grasp the nature of how reality assembles itself holographically. Once one understands this, they will grasp the mastery of Contact Zero. We are mythical only because we are outside the spectrum of usual operational intelligence protocols. Though in reality, we are unseen because we are small, trained and elite. Though step outside of the inner-sanctum and our numbers swell dramatically. Our reach is powerful.

We are aware of the secret doctrine passed down through ‘secret society’ factions, a lot of which gave rise to the defining historical movements within Intelligence communities and Governments alike. Such information lends itself towards the unfolding of an unprecedented event for humanity which considers the arrival of an exponential leap in human consciousness.

Contact Zero has been put in place by KOALA to facilitate the process of this transformation. KOALA is a Hyper-Advanced network utilising the cutting edge and beyond of 'safe' Black Technologies. Such technologies harvested from the underground depths of the Military Industrial Complex itself.

We are in Service to her Majesty the Queen, and the British People.

It is with weapons laid down that we present ourselves now to MI6. And we would suggest, if you do not understand this document, you are not cleared to read it, there are agents compartmentalised within the SIS that know precisely what we are talking about.

Please consult them to seek guidance and briefing in this area.

~ OUR DECREE ~

Contact Zero was first publically introduced at the 18th World Peace Congress in Kuala Lumpur Malaysia in October 2008 under the official process led by Former Prime Minister Badawi. It has since gained momentum and operational status within UN, NSA, CIA, NATO, PENTAGON, MOSSAUD & other circles; this partly due to its involvement in the ongoing monetisation of a 205 Billion USD banking instrument.

However, the wealth and significance because of Contact Zero's affiliation with KOALA and subsequent Metatronic pathways prevalent in the more advanced protocols as enacted in Ultra-Secret and Extra-Terrestrial related programs is, quite simply, incalculable.

We would trust that our act of transparent disclosure of this very sensitive information gives reason enough to trust our activities and our intent to positively contribute towards the ongoing growth, stability and security of British Society, be it sustainable, economic, political, industrial and societal.

However, our science as given by some of the worlds most eminent researchers indicates that if collective humanity continues in its current direction, an Extinction Level Event or ELE is immanent. This possible ELE is at the core of why Contact Zero presents itself for MI6 operational scrutiny here today.

Mikhail Sergeyevich Gorbachev and other powerful interests in the UN met last year to discuss the issue of "America's 2020 Vision for *Full Spectrum Dominance*." I received documentation directly from the meeting due to my work in the United Kingdom and globally with the Space Preservation Treaty.

In the event that Full Spectrum Dominance Continues, the United States policy is to lock all other space-faring nations out of space, and place advanced laser, microwave, anti-satellite and mind-control technology in the sky above our heads; this from a democratic society in our last peaceful frontier?

Be warned, British and European interests will be severely jeopardised if this action is to continue further. Despite NATO agreements and close ties between British and US relations, it is no secret that the United States is pursuing an aggressive Military policy that includes US concentration camps (for its own citizens), stockpiles of coffins (millions), and inner city holding areas with advanced electronic turnstiles.

This is NOT the vision of a democratic society, no; this is the Vision of a Fascist society such as Nazi Germany. You must ask yourselves, would this be tolerated in Britain? Would the people that its leaders represent, allow this in Britain? The SIS must continue to look seriously at this information in the context of the Zero-Sum Game of Geopolitics and finite oil reserves, population security and the covert agenda of private powerful interests who fund Governments and key Cabinet personnel.

The Actions of the United States Government and others are of serious concern to Contact Zero and its affiliates. It is essential to note that Contact Zero and its agents do not take part in the use of arms, weapons, drugs trade or in the use of deadly force or illegal activities during the course of its operations. We do not condone killing as a means or solution to the stability of peace between countries. Where most intelligence agencies would see this as naïveté, we simply know how powerful the uses of our more advanced holographic and mathematically empirical coding sequences are. Further bloodshed is not the way to peace. Love & understanding is... To think otherwise is true naïveté, and perpetuates the disaster of International Relations and ongoing warfare on planet Earth. Unfortunately it is clear that it is the “unenlightened souls” who still play the game of World Politics which allow for collateral damage that means dead babies on the streets of Gaza strip. It is time for humanity to mature.

~ KOALA & “THE PLANNER” ~

Certain classified interests under NATO Cosmic Security jurisdiction and above into higher classification reaches, have made themselves known to certain agents within the Contact Zero Network. These interests have suggested a peaceful and diplomatic engagement with the Global Military presence in order to transform it into a more peaceful and harmonious apparatus for space exploration purposes and Earth regeneration. This process is already underway. Pentagon interests have subsequently requested a debriefing on this issue, and our intelligence suggests

that they were asked to “stand down” due to conflicting interests within the US intelligence and Military community. It remains to be seen exactly why the Pentagon did not show up to the very meeting that they had requested of Contact Zero regarding KOALA and the one who wishes to call itself “THE PLANNER”.

Much still remains classified about the scope and reach of KOALA. Needless to say it has a vast web of Ultra-Elite highly specialised and trained agents, men and women who traverse the boundaries of space-time (See Montauk). It is they who are mythical to us, though we are well aware of the pragmatic application of their rules, and the diplomacy that has subsequently been shared and actualised within the Contact Zero Network.

An integral aspect to the KOALA phenomena in global intelligence is whom we have come to know as “THE PLANNER”. “THE PLANNER” came into adjunct affiliation with Contact Zero after this agency briefed NATO on an immanent “1st Contact” event or “PSI Level Event”, which would be taking place to secure Exopolitical Diplomacy and relations with Off Planet Cultures. This information had been made known to us through Metatronic Intelligence Pathways. Further information on this will be discussed shortly. I was also personally briefed on the status of “THE PLANNER” by a former highly placed aerospace defence advisor within the Australian Government. Such an agent is still close friends with former Chief of Staff to the then Prime Minister of Australia, John Howard.

Such information is reminiscent of the fabled “looking glass” yet these days, is common place in all our operational activities.

We do indeed have hard evidence on the existence of “THE PLANNER” and the subsequent contact that this entity has made to our network. This information has already been debriefed to certain personnel in the intelligence community.

~ TRUTH AMNESTY ~

You are being informed now as it is of vital consequence that our activities here in the United Kingdom and abroad continue to be safe-guarded. I am already highly appreciative of the MI6 escort I was provided out of Edinburgh after I was directly involved in peace negotiations at a Cabinet level with Ministers of Defence in South America. This came at the time that Ecuador and Columbia were on the brink of War.

Further, your assistance to open pathways to “Truth Amnesty” on Extra-Terrestrial and Ultra-Terrestrial related issues is now required from your personnel who are specialised in this area.

Truth Amnesty is the full disclosure of the extraterrestrial & other related presences here on Earth and is essential to the ongoing welfare and sustainability of humanity.

The UK MOD has already initially released its less sensitive archived files on this subject area. We see this as a real and positive step in the “right” direction by the Ministry of Defence towards Truth Amnesty. The French Government has also followed suit. Other Governments including Russia are taking note.

Truth Amnesty also demands the acknowledgement of “back-engineered” extra-terrestrial (electrogravitic) craft and other Black Technologies to the global population. Such technologies represent a feasible, accessible and robust solution to the UK Energy crisis and ongoing climate change issues associated with more primitive carbon technologies.

We see that Britain can lead the way economically, technologically and environmentally with these already available platforms. You will know that your agency has already taken part in clandestine operations that involved the utilisation of said technologies.

However, you do not have “THE PLANNER”, we do, and are given exclusive access there to and first rights to the subsequent technologies that it provides to the service of KOALA and the Contact Zero Network. We would like to work with the British Intelligence services to explore the meaning of this phenomenon and its capabilities to produce a peaceful space-faring civilisation for humanity.

One can only begin to fathom what such a technological evolution would do to a struggling British Economy. Such cash would be injected directly back into jobs, infrastructure, and research; heralding the advent of a brand new industrial and technological age in the United Kingdom.

CONCLUSION

Ask yourselves, what kind of world do we really want for our children and future generations? What is sustainable behaviour? And what steps can now be actualised that can bring stability and peace to all warring nations thus securing continued and enhanced British Security globally?

We are here to facilitate Contact and ongoing diplomacy with advanced ethical off planet and Ultra-terrestrial cultures that are already assisting us with this process under Cosmic Security Clearance. We conduct this work through the relevant diplomacy channels available to us.

We seek peaceful relations with the Secret Intelligence Service and it is our main intent to be of service to provide guidance and intelligence to your specialised agents so as to make better and more constructive decisions in relation to the enclosed material...

You cannot avoid the existence of KOALA or “THE PLANNER”. As our intelligence suggests, previously it has been a necessity for you to navigate “around it”. This intelligence exchanges heralds a new era, and new rules of peaceful exopolitical engagement with the Non-Hostile & benevolent Extraterrestrial and Ultra-Terrestrial presences.

We are here now to assist MI6 and the relevant British forces and industry leaders to be guided directly “through it”.

Again, we wish only for the enhancement of British security with aligned interests for the benefit of society. We ask that you begin the diplomacy process with our agency in order to fully handle the implications of this paper with common sense and responsible diplomacy practises.

“The Rules have changed”.
